

Back-end developer with +5 years of exp. (Aarhus or Lyngby)

Back-end developer with +5 years of exp. (Aarhus or Lyngby)

We are looking for a back-end developer with +5 years of experience, who enjoys working with new technologies and wants to make an impact. As part of our team, you will enjoy lots of responsibility and freedom under the guidance of you chief developer. You will be tasked to develop the back-end of your platform in close cooperation with the rest of the development team and sub-contractors.

Location: Aarhus or Lyngby.

We are:

- Bringing a collaborative IT-service to market, which supports companies that are trading internationally
- Our staff consists of top subject matter experts and proven business executives
- We are an EU-based company currently situated in Denmark and Ireland
- English is our company language

You are:

- A team player with strong analytical skills
- A good communicator and problem-solver
- A responsible and self-motivated person able to structure your own work and meet agreed deadline
- An expert in .Net, C#, SQL, XML, XSLT
- Experienced in working with web services, integrations, code optimization, database calls and performance
- Experienced in setting up databases and servers
- Holding a relevant education and certifications, but more importantly you are keeping yourself up-to-date with the latest development and technologies

You will:

- Become a part of the team with smart people
- Work in close collaboration with our chief developer and other developers
- Have a chance to make an impact

We offer you:

- The opportunity to be part of a dynamic team
- An informal and collaborative work environment
- Lots of responsibility and new challenges

Interested?

- Please drop us a few lines about yourself and don't forget to include a CV (please use pdf-format).

You can apply by sending an email to: hr@clearviewtrade.com
